SMART CITIES AND INCLUSIVE INNOVATION

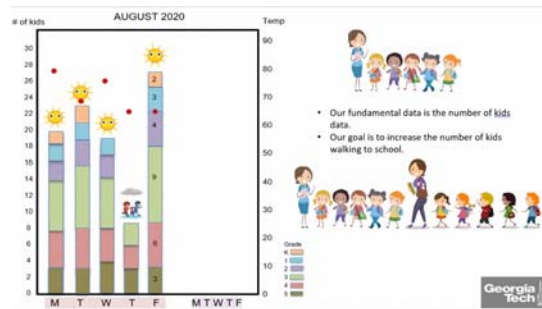

Community Data Workshop

By: Hoang Ly, Heung Jin Oh, Katie Popp, and Duo-Wei Yang

On July 8th, GA Smart hosted a virtual workshop focused on the use of data in smart cities. The event was led by Georgia Tech’s [Dr. Yanni Loukissas](#) and [Dr. Christopher Le Dantec](#) of the [School of Literature, Media, and Communication](#) and provided an open dialogue for the [2019 Georgia Smart communities](#) to discuss the characteristics of data collected by each community.

How to Host a Virtual Site Visit?

By: Katie Popp

The City of Woodstock, along with partners Georgia Tech and POND & Company, hosted a virtual site visit in June as part of the [Georgia Smart Communities Challenge](#). Since the start of the one-year project period in September 2019, Woodstock has worked to create a master plan and [Smart Corridor Study](#) to support the planning of future smart solutions for the city.

Thank You to Our GA Smart Partners!

We believe all communities can be smart. Through the integration of technology and data, communities of various sizes, geographies, and development can be empowered to improve their quality of life. That is why we have pulled together a cross-sectoral partnership to raise awareness and knowledge, develop networks, and implement smart projects. This monthly newsletter is part of this greater effort!
