

SMART CITIES AND INCLUSIVE INNOVATION

Georgia Smart Communities Share Project Updates

During a recent virtual meeting, city and county representatives and their Georgia Tech partners from the latest class of the Georgia Smart Communities Challenge program discussed the status of their projects and the challenges they've faced along the way.

Smart City Digital Twins

The amount of data generated around the world has exploded. It's available in volume and quality unmatched in human history. Now, this data can be used to create a city's Digital Twin that can give us insight and a deeper understanding of the communities we live in.

A banner for the #SMARTer Together Webinar Series. The background is a high-angle photograph of a city skyline at dusk or dawn, with buildings lit up. In the top right corner, the Georgia Tech logo is visible next to the text "Smart Cities and Inclusive Innovation". The main text "#SMARTer Together" is in a large, bold, yellow font. Below it, "Webinar Series" and "Thursdays at Noon" are written in a smaller, white font. The banner has a dark blue diagonal overlay on the left side.

SCI2 Launches #SMARTer Together Webinar Series

We are proud to introduce the [#SMARTer Together webinar series](#). This series aims to challenge us beyond the immediate crisis and onto a newer state where we have another chance to build strong community-research partnerships for good. By focusing on complex, societal problems that communities all over GA and the rest of the world face, we aim to provide innovative research and create partnerships to empower all. We adhere to GT's [Strategic Plan and Mission](#) on "developing leaders who advance technology and improve the human condition."

Let's all be #SMARTer Together.

Thank You to Our GA Smart Partners!

We believe all communities can be smart. Through the integration of technology and data, communities of various sizes, geographies, and development can be empowered to improve their quality of life. That is why we have pulled together a cross-sectoral partnership to raise awareness and knowledge, develop networks, and implement smart projects. This monthly newsletter is part of this greater effort!
